*“When working in a network with 12 members, Teammate has become a very useful tool”*

*Nati Buil, manager of A CIELO ABIERTO*

### Summary

This case study shows the utility of the tool TeamMate360.

As manager of a network of contemporary dance festivals in unusual spaces we work with remote teams distributed throughout Spain

### Challenges

For us as a network of contemporary art festivals, it is a challenge to unite 12 members from different places in Spain.

It is also an objective of our network to be an open and inclusive infrastructure in which to share information, ideas and projects, so it is very important to have evaluation tools

## T360 Assessment

Nati Buil considers the use of Teammate360 very satisfactory and has made it possible to locate the weaknesses and strengths of her team.

## The Outcome

To-date, Nati Buil is considering implementing this tool in each of the festivals that belong to the network

## Results and Future Plans

The future of the network of contemporary art festivals is to increase the number of members so that continuing to use Teammate can help us find new partners

*"It is a great tool to share my team's internal information"*

Teammate 360 is a project funded by the Erasmus+ programme.

The project aims to help managers and enterprises involved in the management of remote workers and virtual teams.

During the project, managers completed a 360-degree skill assessment and took part in a course called The Remote Manager.
