Background

Ciat Studio is a niche consulting company based in Foggia, Italy. Ciat Studio is specialized in designing and delivering multistakeholder projects, under EU, national and local funding. The rate of successful applications by Cia'T has been growing over time.

T360 Assessment

Ms. Daniela Eronia, in his capacity of partner and manager has performed his self-assessment, while team members mr. Danilo Santoro and Mr. Michele Valenzano have completed the T360 assessments.

The Outcome

The T360 assessment was performed during the fall/winter 2018. Assessors were selected since they are part of the core team and perform part of their work in remote. They, in fact, often travel across Italy to meet with partner institutions or to sign new partnership agreements.

Results and future plans

The evaluation performed through Teammate360 displayed that the manager's self-assessment and the team members' assessments were pretty much aligned, in particular in the area and "exploiting technology" where self-assessment scored lower than third parts' one. Future plans include designing specific procedure to perform remote-teamworking.

Teammate 360 is a project funded by the Erasmus+ programme.

The project aims to help managers and enterprises involved in the management of remote workers and virtual teams.

During the project, managers completed a 360-degree skill assessment and took part in a course called The Remote Manager.
