

TeamMate 360: Borbala Demeter, Elit Optika

TeamMate 360:

Elit Optika

Borbala Demeter

“Really easy to use and well thought. Gives instant feedback as you complete the assessment. Worth trying”

Borbala Demeter/Elit Optika

Summary

Elit Optika is a specs shop which is activating within the region of Miercurea Ciuc. They have shops in different towns of the county, therefore for Borbala, who is the manager of the business it is important to keep in touch with all her employees.

Challenges

While we asked Borbala about challenges she encountered while working with T360, she said that for her and her group all went on and turned out perfectly. She found the app really useful.

T360 Assessment

The T360 assessment has been completed by 2 colleagues of Borbala. She says that she would like to repeat the experience within a few months time, to see if she managed to introduce the changes indicated in her individual report, which she found really interesting. She says she got challenging feedback.

The Outcome

As she completed a feed-back session with one of our TeamMate facilitators, she is really keen on repeating the assessment to see what improvements she managed to introduce in her everyday work.

Results and Future Plans

Borbala says that she will make sure to tell everybody among her acquaintances about the T360 app and that all managers should take this opportunity and self-reflect on how to improve their communication and cooperation within their teams.

"If managers would be interested in taking this assessment, collaboration and the work life of many could be improved".

Borbala Demeter, Elit Optika

Teammate 360 is a project funded by the Erasmus+ programme.

The project aims to help managers and enterprises involved in the management of remote workers and virtual teams.

During the project, managers completed a 360-degree skill assessment and took part in a course called The Remote Manager.
